👤 PROFILE

Full-Stack Web Developer skilled in building high-performance, scalable web applications using **Next.js**, **React**, **TypeScript**, **TailwindCSS**, **Django**, **Node.js**, and **Express.js**. Experienced in designing clean UI interfaces, developing secure backend APIs, and implementing end-to-end authentication systems for real-world projects. Passionate about creating impactful digital solutions and constantly exploring modern web technologies.

🔧 SKILLS

Programming Languages

JavaScript (ES6+), Python

Frameworks & Libraries

React, Next.js, Django

Styling & UI

TailwindCSS, CSS3, HTML5, Squoosh

Databases

MySQL, Supabase

Tools & Platforms

Git, GitHub, REST APIs, Postman, VS Code, Render, Vercel

📁 PROJECTS

LifeCare — Hospital Website, Tech Stack: React, TailwindCSS, Django

- Built a secure patient portal for profile management and medical access.
- Implemented an appointment booking system with smooth user flow.
- Designed responsive UI components and integrated Django backend.

HopeBloom Africa — NGO Website, Tech Stack: React, TailwindCSS, Django

- Developed volunteer and partnership registration systems.
- Built pages showcasing programs, impact metrics, and success stories.
- Created an engaging and mobile-friendly UI.

SwiftEase — Logistics Website, Tech Stack: React, TailwindCSS, Django

- Implemented real-time package tracking using package ID and location.
- Built dynamic delivery pages with clean, responsive layouts.
- Connected frontend tracking features to Django backend endpoints.

ShynWorks — Cleaning Service Website, Tech Stack: React, TailwindCSS

- Designed service showcase pages displaying available cleaning packages.
- Built a clean, responsive layout optimized for engagement.

Structura — Construction Company Website, Tech Stack: React, TailwindCSS

- Developed engineer booking system for client services.
- Built UI features connecting engineers with clients.
- Enhanced user flow for service requests.

PROFESSIONAL EXPERIENCE

Freelance Web Developer — Self-Employed

Ilorin Nigeria

- Built and deployed responsive web applications using React, Next.js, Django, TailwindCSS, and TypeScript.
- Developed secure backend systems including authentication, database management, and API integration.
- Delivered multiple projects, including hospital, NGO, logistics, cleaning, and construction websites.
- Managed end-to-end project workflow: UI/UX design, frontend, backend, and deployment.
